## HOW IT WORKS

### ONE PLATFORM, SO MANY POSSIBILITIES

AudioFetch is the absolute best platform for providing local audio to smartphones and tablets across any application. The Fetch-family of products are employed in fitness, sports bars, restaurants, airports, digital signage, assisted listening, casinos & gaming, education and more. From the tiny, single input AudioFetch Express with integrated WiFi to a full 512 input AudioFetch deployment, each audio input gets dedicated processor power to ensure your application scales now, and for the future.

### DESIGNED AND MANUFACTURED BY US, IN-HOUSE ENGINEERING AND SUPPORT.

AudioFetch is designed and manufactured by Broadcastvision Entertainment so the quality of the product and support will be top notch. We offer 2 different types of systems:

- ✓ AudioFetch Express
- ✓ AudioFetch

For more information and pricing please contact:

**Pacific Audio Visual Ltd**

## AUDIOFETCH

Plug-n-play installation using your existing Wi-Fi - no custom configuration required. Available in 4 channel systems to 512 channels.

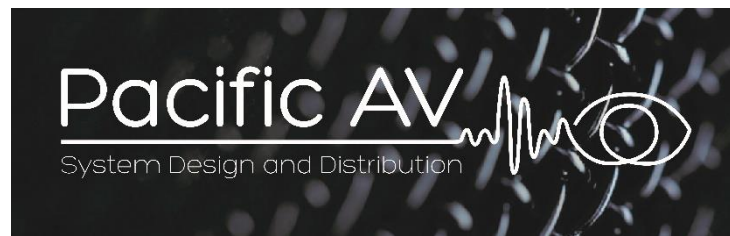

- ✓ **Hardwired or Wireless with Accordio:** Connect to the audio outputs of any audio source and to the router, it's that simple. Accordio is an option for systems that cannot be hardwired.
- ✓ **Custom Cables Included:** Free custom cables based on your requirements including analog, (RCA & headphone), optical or coax.
- ✓ **Multiple Input Types:** Each one of our channels accept 3 types of audio inputs (analog, optical or digital coax) to ensure compatibility.
- ✓ **From 1 to 512 Audio Inputs:** Each audio input has a dedicated audio processor for maximum performance and scalability.
- ✓ **Free App:** Users download the AudioFetch app for free.
- ✓ **Expandable:** Our 4 channel card slots make it easy for facilities to expand. Simply add additional cards or AudioFetch Express units as needed.

## FREE APP THAT'S INTUITIVE AND EASY TO USE FOR ALL AGE GROUPS.

Available for free on Google Play and iTunes, the app is easy to use and not cluttered with unnecessary and distracting information.

The app displays the number of channels available in your facility to eliminate confusion. The channels are easy to scroll with a simple swipe.

Adjust the volume with the phone's volume adjustment or adjust using the slider-bar on the app.

For more information and pricing please contact:

Pacific Audio Visual Ltd

[info@pacifcav.co.nz](mailto:info@pacifcav.co.nz) 09 9475230 [www.pacifcav.co.nz](http://www.pacifcav.co.nz)

## CUSTOMIZE THE APP

Easily customize the app with your logo and color scheme.

Change the color of the menu button and text (secondary color).

Change the color of the background.

Update with your logo & change the color scheme of the top bar & settings menu (primary color).

The color surrounding the circle will be updated with the primary color chosen matching the top bar. Add channel names or logos.

The color of the volume bar slider will match the primary color chosen.

## SAMPLE NAME BRAND CUSTOMIZATIONS

The brands listed are design examples only and do not suggest or assume the listed brands endorse AudioFetch.
