

# ZONE POWER EIGHT

## 8-Channel 70V/100V Amplifier

The RANE Zone Power Eight is an 8-channel amplifier designed for 70V/100V contractor/install applications, and perfect for the distribution of multiple speaker systems over long cable runs, such as in-ceiling speakers, surface-mount speakers and paging horns.

### Features

- 8-Channel Class-D amplifier designed for 70V/100V applications
- 150W per channel
- Euroblock inputs and outputs
- Separate rear panel gain controls for each channel
- Signal, clipping and thermal interruption indicators on front panel
- Short-circuit and open-circuit protection
