Overview:

The DN-205IO is a 6.5", 2-way passive indoor-outdoor speaker for installations in restaurant patio areas, outdoor bar vignettes, health clubs, outdoor pool areas, and other applications where outdoor music and paging is required. The DN-205IO is weather-resistant and includes a bracket for mounting. For maximum flexibility, each speaker is compatible with 70V/100V/8 Ω systems by having an adjustable tap. The speaker binding post screw terminal wire connection accepts larger diameter wire for 8 Ω use - along with smaller diameter 70V/100V wire. The adjustable horizontal/vertical mounting bracket attaches to the top and bottom of the speaker and to the mounting surface.
