

Alfatron 4K UHD Camera

DESCRIPTION

The Alfatron HOLA is a new 4K UHD ePTZ video conference camera. It has built-in AI functions, which can automatically frame all people in the meeting and centre them in the same scene. With flawless functionality and superior performance, adopting advanced ISP processing algorithms to provide vivid images with evenly clear brightness, strong color layering, high resolution, and fantastic color rendition. Easy and convenient to install and maintain, stable and reliable.

FEATURES

- **4K UHD:** It employs 1/2.5 inch, 8 million pixels high-quality CMOS sensor; supports 4K UHD; provides 4K@ 30fps MJPG video resolution at most and provides clear UHD video and vivid expressions and movements. At the same time, it is compatible with 1080p and 720p resolution
- **EPTZ:** EPTZ and 4X digital Zoom
- **Built-in microphone:** Includes 2 built-in microphones with all-round pickup. Unique noise suppression algorithm ensures your voice is perfectly clear. The effective microphone pickup distance is up to 5 meters
- **Dual-stream output:** The USB3.0 port support mainstream and sub-stream output at the same time
- **Auto framing:** With an excellent facial detection algorithm, the camera automatically adjusts the zoom according to the number of people in the meeting. It can frame all the meeting attendees and centre them within the scene
- **Wide view angle without distortion:** 120° super wide view angle lens for options
- **Low Noise and High SNR:** Low Noise CMOS effectively ensures high SNR of video. Image is still clear even under low light condition.
- **Multiple Installations:** Standard equipped with a mold clamp. Easy to install on any device, such as LCD screen, PC, table and tripod.
- **Easy to Use:** No need to download driver; USB Plug and play
- **Wide Applications:** Personal video conferencing, enterprise video conferencing, unified collaboration, etc
