TouchOne with eightOS 3

The centralised control centre that brings all of your home's smart technology together into one beautifully simple wall mounted touchscreen.

Features

Gorgeous 7" HD Display
With a resolution of 1280x800 packed into a 7" IPS display, TouchOne can be seen clearly, from almost any angle.

Ultra-Reliable
TouchOne includes our custom engineered PI-1 microcontroller to give unmatched reliability and uptime.

Purpose built for the home
TouchOne is engineered from the ground up to be mounted without an ugly and convoluted tablet mount.

Incredibly easy to install
TouchOne runs on a safe low voltage 12V supply, can be surface mounted and can be installed with only a few screws.

Beautifully thin
TouchOne is less than 14mm thin when surface mounted and can easily be mounted to block, brick or even glass.
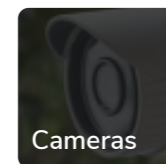

Fluent in communication
With WiFi 802.11b/g/n and Bluetooth 3.0/LE built in, TouchOne will talk to most technology in your home.

What TouchOne can do for your home
